

For the
Treatment of
**Aphte,
Canker Sores,
Stomatitis**

Oral Spray
start from
+6 MONTHS
and Adult

20 ml Spray Bottle
with Dispenser

CANKER SORE Relief Oral Spray is a **medical device class IIA**, especially designed for children, start from 6 months of age, and adult, **for the treatment of aphte, canker sores, stomatitis**. Its formula is based on the patented ROSHIELD ingredient (Damask rose extract and hyaluronic acid sodium salt HMW). Thanks to its special composition, CANKER SORE acts with an effective barrier effect, enabling a rapid reduction of the local pain and promoting healing of canker sores. The mint flavour makes the application pleasant. The formula is enriched of the patented raw material ROSHIELD™, composed of Damask rose bud extract and HMW hyaluronic acid sodium salt. ROSHIELD™ has a soothing, protective, **specific action for the buccal mucosa**. The synergy of rose extract and hyaluronic acid, is covered by an Italian patent, and an international patent application.

DIRECTIONS

Place the dispenser over the affected area and apply the product 2- times a day, or more as needed, between meals, for a week or until the symptoms have disappeared. It is recommended not eating and drinking for at least 30 minutes after application, to facilitate the adhesion of the product. Is not recommended the use of the product for children under 30 months.

USEFUL FOR:

- 1 It relieves discomfort and pain quickly
- 2 It facilitates the healing of canker sores, reducing their duration
