Live Probiotics Facial Ampoules

3Phase
Cap Technology

pro&pre
BIOTIC skin care

7 ampoules of 5 ml
with 3PHASE CAP
for maximum protection
of live probiotics and dropper

The only skincare with live probiotics in ampoules. An ultimate rebalance Serum treatment that merge the strength of Lactobacillus Rhamnosus with the unique features of natural actives for an immediate eudermic skin rebalance, protection, brightness and radiance.

VIALE probiotics thrive on skin and they keep the skin's surface balanced, younger-looking and strong. They contribute to restore a **healthy microbiome balance**.

Betaglucans, with prebiotic activity, favor immuno skin protection. **Donkey milk**, a natural elixir is full of rejuvenating and healing properties. **Hyaluronic acid and Superior Shea butter** with moisturizing and softening action. **Niacin and Biotin** reinforce the skin barrier with smoothing properties.

DIRECTIONS

HOW TO OPEN

Insert the key into the product cap

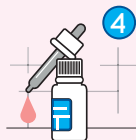

Twist the top clockwise

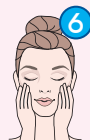

Shake the bottle

HOW TO APPLY

Screw the dropper on the ampoule and then apply the serum, spreading the product on the face by tapping with your fingers. **Avoid contact with the eyes.**
