

**Soothes  
and Calms  
Sore Gums**

**Oral Care  
+6 MONTHS**

15 ml tube

TEETHING & GUMS Soothing Gel is a **muco-adhesive gel, Medical device class IIA**, that quickly makes a film on the gum, **relieving pain and discomfort due to teething in children**, start from 6 months of age. The formula contains HMW **hyaluronic acid** sodium salt and pectin, ingredients that are able to form the film on the interested parts. It also contains high quality natural vegetal extracts (Rosa Damascena petals, Chamomile, Aloe vera gel and Mallow).

The formula is enriched of the patented raw material ROSHIELD™, composed of Damask rose bud extract and HMW hyaluronic acid sodium salt. ROSHIELD™ has a soothing, protective, **specific action for the buccal mucosa**. The synergy of rose extract and hyaluronic acid, is covered by an Italian patent, and an international patent application.

## DIRECTIONS

Apply enough product with a clean finger to cover the interested area and gently massage the infant's gums. Use preferably after meals and before sleeping in order to help the formation of the film and prolong the duration of the relief. Use 3-5 times per day, as needed. Recap after each application. Use within 30 days after the first opening.
