

Medical Device IIA based on Hedge Mustard, Italian Helichrysum plant, Aloe vera and Propoli

Medical device in tablet form with strong flavour for the treatment of throat irritations. Based on **Aloe vera gel**, rich in hydrophilic polysaccharide colloids (mucilage) with mucoadhesive characteristics which, in the presence of the water, located on the epithelium of the oral cavity, jellify forming a protective film on the mucosa of the upper respiratory tract. The formula is enriched with phytoextracts of **Hedge Mustard and Helichrysum plant**.

Hedge Mustard extract is a mucolytic, expectorant remedy, rich in glucoside. The intake of ascorbic acid with an antioxidant value is also interesting. The organs involved in its phytotherapy applications belong to the upper part of the respiratory tract, the oropharyngeal tract, the larynx and the vocal organs; in popular tradition, Hedge Mustard is known as the "singer's plant" useful against hoarseness and vocal lowering.

The traditional use of **Helichrysum plant** extract is related to the treatment of respiratory tract diseases. In several studies its use in viral tracheo-bronchitis has been confirmed, a pathology with a spring-autumn seasonal pattern that occurs more frequently in subjects with allergic familiarity. It is assumed that the plant acts both as a bacteriostatic and as an antioxidant activity, and that its action can be explained by "multiple effects" including the inhibition of inflammatory enzymes and the scavenger action of free radicals.

The intense, balsamic and refreshing aroma allows the preparation to bring to the irritated throat an immediate cooling against redness and burning.
Gluten free and naturally lactose free.

DIRECTIONS

To relieve and fight sore throat, it is recommended to let 1 tablet dissolve slowly in the mouth up to four times a day.
Don't chew.

Packaging in:
Pillbox of 60 tablets - 2 blisters of 10 tablets each
In box with information leaflet and guarantee card

INGREDIENTS:

ALOE VERA GEL SINE CUTE D.E. 200:1^C, D.E. HEDGE MUSTARD FLOWERING PLANT^A, D.E. CURRY PLANT INFLORESCENCES^B, MAGNESIUM STEARATE, SILICON DIOXIDE, AMMONIUM GLYCERYRRHIZINATE, SORBITOL^D, XYLITOL^D, PROPOLIS DRY EXTRACT^E, FLAVORS.

FUNCTIONS:

- A** Mucolytic, antitussive, antiseptic
- B** Antibacterial, soothing throat
- C** Soothing, calming, moisturizing
- D** Humectant, hydro-balancing, antidryness
- E** Antibacterial preservative

USEFUL FOR:

- 1** Protect your throat from dryness, irritation and burning
- 2** Relieve from redness and moisturize the mucous membrane
- 3** Preserve the mucous membranes from microbial attacks of both bacterial and viral nature
- 4** Soothe and disinfect the oral cavity
- 5** Refresh mucous membranes and breath

Medical Device IIA based on Polisedox, Plantain, Althea, Mallow and Honey complex with Eucalyptus Essential oil

Packaged in 230 g (180 ml) bottle with measuring cap. Closed in a box with informative leaflet. Positioned on a countertop display case

Medical devices for the treatment of dry and productive cough. Protects mucous membrane soothing irritation, hydrates and favors mucous removal.

Forms a protective film that adheres to the mucous membrane and protects it from the contact with irritating agents (barrier effect), promoting mucous hydration and fluidization and reducing the irritant rubbing of the pharynx that causes the cough (soothing lubricant action).

The formulation contains the exclusive molecular complex POLISEDOX from Plantain, Althea and Mallow, rich in hydrophilic colloids of polysaccharide nature (mucilage).

It is a functional complex titled in long chain polysaccharides $\geq 30\%$ with mucous-adhesive characteristics that in combination with water, which is naturally present in the mouth epithelium, jellify forming a protective film on first respiratory tract mucous. In addition, the presence of Propolis highly titled in Galangin, one of the best natural antibacterial, shows its inhibitory action on germ capacity to adhere to the guest cells and so to infect them.

Neo VITAGOLA® COUGH SYRUP rapidly counteracts the cough symptom typical of the cooling diseases, acting directly on the cause that is mucous irritation due to infective and irritant agents such as dust, pollution and smoke. For its natural characteristics, the product can be used from both adults and kids over 12 years.

The balsamic and refreshing taste gives the sore throat an immediate refreshment against redness and burnings.

DIRECTIONS

In order to give relief and fight cough and sore throat is recommend to take 10 ml, two to four times a day. Last consumption should be before going to bed.

TECHNICAL NOTES

Medical device based on functional mucous-adhesive principles "at barrier effect", rehydrating the oropharyngeal mucosa. Stability, biocompatibility, and mucous-adhesivity test in vitro.

COMPOSITION:

WATER, NATURAL LEMON JUICE, XANTHAN GUM, PROPOLIS D.E. TIT. 12% IN GALANGINA, D.E. ELICRISUM D.E., ALTEA D.E., PLANTAIN D.E., MALLOW D.E. LEAVES, ACACIA HONEY, FRUCTOSE, GRINDELIA FLUID EXTRACT, ESS. OIL EUCALIPTUS, CITRIC ACID, ORANGE FLAVOR.

FUNCTIONS:

- A** Soothing, Calming, Moisturizing, Anti-irritant
- B** Disinfectant, Antibacterial, Antiviral, Epithelizing
- C** Antibacterial, Antinflammatory
- D** Soothing, Emollient
- E** Humectant, Hydro Rebalancing, Secretion Fluidizer

USEFUL FOR:

- 1** Protecting and soothing the upper respiratory tract
- 2** Acting on the dry cough hydizerdrating the mucous
- 3** Acting on the fat or productive cough thinning the mucous
- 4** Preserving the mucosal from viral and bacterial microbial attacks
- 5** Lubricating the pharynx and soothing the cough

Medical Device IIA based on Polisedox, Plantain, Althea, Mallow and Honey complex

Packaged in 230 g (180 ml) bottle with measuring cap. Closed in a box with informative leaflet. Positioned on a countertop display case

COMPOSITION:

WATER; STRAWBERRY JUICE, XANTHAN GUM, PROPOLIS D.E. TIT. 12% IN GALANGINA, ELICRISUM D.E., ALTEA D.E., PLANTAIN D.E., MALLOW D.E. LEAVES, ACACIA HONEY, FRUCTOSE, GRINDELIA FLUID EXTRACT, STRAWBERRY AROMA, CITRIC ACID, PEACH AROMA.

FUNCTIONS:

- A** Soothing, Calming, Moisturizing, Anti-irritant
- B** Disinfectant, Antibacterial, Antiviral, Epithelizing
- C** Antibacterial, Antinflammatory
- D** Soothing, Emollient
- E** Humectant, Hydro Rebalancing, Secretion Fluidizer

USEFUL FOR:

- 1** Protecting and soothing the upper respiratory tract
- 2** Acting on the dry cough hydrating the mucous
- 3** Acting on the fat or productive cough thinning the mucous
- 4** Preserving the mucosal from viral and bacterial microbial attacks
- 5** Lubricating the pharynx and soothing the cough

Medical devices for the treatment of dry and productive cough. Protects mucous membrane soothing irritation, hydrates and favors mucous removal.

Forms a protective film that adheres to the mucous membrane and protects it from the contact with irritant agents (barrier effect), promoting mucous hydration and fluidization and reducing the irritant rubbing of the pharynx that causes the cough (lenitive lubricant action).

The formulation contains the exclusive molecular complex POLISEDIX from Plantain, Althea and Mallow, rich in hydrophilic colloids of polysaccharide nature (mucilage).

It is a functional complex titled in long chain polysaccharides $\geq 30\%$ with mucous-adhesive characteristics that in combination with water, which is naturally present in the mouth epithelium, jellify forming a protective film on first respiratory tract mucous.

In addition, the presence of Propolis highly titled in Galangin, one of the best natural antibacterial, shows its inhibitory action on germ capacity to adhere to the guest cells and so to infect them.

Neo VITAGOLA® JUNIOR COUGH SYRUP rapidly counteracts the cough symptom typical of the cooling diseases acting directly on the cause that is mucous irritation due to infective and irritant agents such as dust, pollution and smoke.

The pleasant taste of strawberry aroma makes it suitable for kids, especially before going to bed in order to face a peaceful night's sleep.

DIRECTIONS

In order to give relief and fight cough and sore throat is recommend to take 5 ml for children aged between 3 and 6, and 10 ml for children over the age of 6, two to four times a day. Last consumption should be before going to bed.

TECHNICAL NOTES

Medical device based on functional mucous-adhesive principles "at barrier effect", rehydrating the oropharyngeal mucosa. Stability, biocompatibility, and mucous-adhesivity test in vitro.

Medical Device IIA based on Aloe, Calendula and Iceland Moss

Packaging in a 30 ml bottle with a special nebulizer, closed in a case with information leaflet and guarantee card.

Throat spray Medical Device class IIA for the treatment of throat irritations. To soothe and reduce redness, burning and irritations. The formulation contains **Honey, Aloe and Calendula**, rich in hydrophilic polysaccharide colloids (mucilage) with mucoadhesive characteristics which, in the presence of the water, located on the epithelium of the oral cavity, jellify forming a protective film on the mucosa of the upper respiratory tract, with **Iceland moss and essential oils**.

Lichen or Iceland moss, is an extract rich in colloidal mucopolysaccharides, it has a recognized role in otolaryngology therapies. It is able to promote a calming and soothing effect on irritated respiratory mucous membranes and to bring immediate relief by decongesting and thus promoting a prompt expectoration. The essential oils of **Thyme, Eucalyptus and Mint** have refreshing tonic-balsamic qualities, as well as bacteriostatic and antioxidant actions for mouth hygiene.

The intense, fresh and balsamic aroma of this Spray allows the preparation to bring immediate cooling effect to the irritated throat, and reduces redness and burning.

Gluten free and naturally lactose free.

DIRECTIONS

Use the special nebuliser to dispense and direct the product locally. Spray 1-3 times per application, repeat up to three times during the day. Shake well before use.

INGREDIENTS:

WATER, ALCOHOL, VEGETABLE GLYCERINE, CALENDULA OFFICINALIS FLUID EXTRACT^A, ICELANDIC MOSS FLUID EXTRACT, PURE HONEY OF ACACIA BEES^B, ESSENTIAL OIL OF MINT ARVENSIS^C, ESSENTIAL OIL OF EUCALYPTUS GLOBULUS^D, ESSENTIAL OIL OF WHITE THYME^E, ALOE (ALOE VERA GEL) DRY EXTRACT 200: 1^F, PROPOLIS DRY EXTRACT^G, PRESERVATIVES, SUCRALOSE, CITRIC ACID.

FUNCTIONS:

- A** Emollient, soothing, dermo-purifying antiseptic
- B** Humectant, hydro-balancing, anti-dryness fluidifying
- C** Soothing, invigorating, refreshing
- D** Balsamic, refreshing, decongestant
- E** Toning, anti-bacterial, anti-mycotic
- F** Soothing, calming, moisturizing
- G** Antibacterial, preservative

USEFUL FOR:

- 1** Protect your throat from dryness, irritation and burning
- 2** Relieve from redness and moisturize the mucous membrane
- 3** To preserve the mucous membranes from microbial attacks of both bacterial and viral nature
- 4** Soothe and disinfect the oral cavity
- 5** Refresh mucous membranes and breath
